# Millitary Banquet to Kossuth.

The millitary of the city of New York gave a grand levee to Kossuth at the Castle Garden on the 17th inst. About 5000 attended in full uniform. Kossuth, though sick, attended in his velvet military frock, and a splendid sword, a present from Americans. He was introduced to the Generals of Brigade by Gen. Sanford, who addrssed him in behalf of the millitary.

Kessuth replied in a speech of two close printed columns. He complimented the citizen soldiers on their appearance and proficiency, and their glorious achievements in the war of 1812 with England, and in the late war with Mexico. ### From Buffalo.

Burrate, Dec. 27. About 1 o'clock, A. M., one of the taost destructive fires that has visited us for years broke out in a building on Main street, copposite the Mansion House, known as Spaulding's Exchange; Erie Hall, Bank of Attica, and several spacious stores entirely consumed. The fire exdown several stables and buildings on each street. The coldness of the night and the scarcity of water rendered it impossible to subdue the fearful progress of the flames.

During the time this fire was raging another alarm up town was given, which proceeded from Swan street, where a private dwelling was discovered to be on fire. The firemen could not divide their forces, consequently three handsome dwellings were consumed. It is impossible at present to estimate anything like the immense loss. The offices of most of our leading lawyers were in the Exchange. In the first fire the extensive stores of Williams & Co., and O. H. P. Williams ; the tailor shop of L. D. WEAVER'S SYRUP, AFTER-ALL OTHER TRIED MEDICINES HAD FAILED.

Mesers, S. A. Weaver & Co.,—Gentlemen: In relation to my wife, I would say that from childhood she has been affacted with a flamor. About twenty years since it appeared in a very distressing form of Erysipelas, at first in a spot of a bright cherry color on the side of the face, accompanied with a painful sensation, similar to that produced by fire. From this point it spread over the whole face, which became so swollen that for several days she was entirely likind, and so disfigured that her most intimate acquaintances did not recognize her. She had been in this situation three times in the last five years. Its effects sometimes appeared in small cracks in the skin, commencing back of the ears, thence extending over the sides of the head. So sare and painful were they, that at night it was impossible for her to allow them to touch the pillow. The discharge from these sores was so profuse that it frequently we through the dressings and run down the sides of the nock, and at acrid was it, that when it came in contact with the skin, the effect was the same as that of boiling water. · READ THE GERTIFICATES

and were very paintul and tencer; in a short time these spots would be covered with minute birsters, which broke, and discharged, then dried up, forming a seah which would in a few days come off, leaving an ingry and painful sore, looking much like a burn. This would be a long time in healing—frequently months. At one time it appeared on the feet and unkles, running much the same course as it had done on the other parts of har body, except that in this instance it was aggravated by exercise. These sorres, moreover, as sumed the character of bad nicers, and so inflamed, that for months see was unable to walk. The deep sears left by them remain to this day. It has affected her breast to that degree that she was unable. E would respectfully call the attention of customers and dealers in drugs and medicines to our full and large assortment of pure articles. We are receiving and now opening. Chang and Powderen; also, the various Compounts, prepared from Medicines introduced by Beach, Mattson, Thompson, Howard, and others. In one or two weeks after noing the medicines the seres began to heal, and before she had finished the second botfle, they were cutirely well. She has now used four bottles, and is lie, they were cultrely well. She has now used four bottles, and is to all appearance perfectly cured, and is in better health also than she has been at any time before for twenty years. The medicum has effected in her case the most wonderful cure ever known in our section of country, and I strongly recommend all afflicted in like manner to give it a trial.
